Dear Mr. Lee,

Richard

Please accept my sincere thanks for the invaluable role that you and your office played in organizing my meeting with the board members of The American Society of Cali at the InterContinental Hotel on August 29, 2015. The American Society is a valuable asset in our efforts to further increase cooperation and friendship between the United States and Colombia. I congratulate you for nurturing this relationship over many years through cultural and educational outreach programs to local schools and civic organizations. Activities such as Plan Padrino and Aces for Health are testaments to your positive contributions and dedication to the community.

I found my meetings in Cali, including with you, to have been informative, productive and insightful. As such my trip to Cali has contributed to my better understanding of the challenges and realities faced by U.S. citizens in Colombia.

My colleagues and I look forward to continuing our cooperation with The American Society of Cali in future events.

Sincerely,

Julie
